JRMO QMS Quality Statement

- Commitment to the continual improvement in the effectiveness of the Quality Management System (QMS).

- To confirm research compliance with the QMS across Queen Mary and Barts Health.

- To ensure the QMS meets all legislative requirements.

- To provide support and enable research studies within Barts Health and Queen Mary; achieving the highest scientific standard.

- To embed quality control and quality assurance procedures in all areas of research.

- Maintain and disseminate organised and structured documentation readily available for all JRMO staff and researchers.

- To monitor and action any research process which deviate from the QMS.

- To ensure all JRMO staff are suitably trained for their roles and continued professional development is encouraged.

- To establish a set of quality objectives which meet the needs of the quality policy.
