

NIHR Health and Care Professional Internship Programme

North London Research Internship for Skill-building and Excellence (NL RISE)

JOIN OUR ONLINE WEBINAR: 12th September 12:00-13:00

Are you a health and care professional working in North London and want to develop your research skills?*

Barts Health hosts a 3-year program for research internships across North London to develop research knowledge and skills to enhance practice, build research delivery expertise, or develop a clinical academic career.

We offer three tiers: Explore, Engage, and Evolve.

Explore: Step into research for the first time

- Structured Learning
- Taster placement with an NHS-based research team

Engage: Grow the research pillar of your role

- Structured Learning
- Embedded placement
- One day a week for up to 6 months

Evolve: Advance research delivery skills/ Pursue a clinical academic career

- Structured Learning
- Bespoke mentorship and training
- One day a week for 9-12 months

*health and care professionals, excluding doctors and dentists.
